JANUARY IS GLAUCOMA AWARENESS MONTH

Glaucoma is one of the leading causes of vision loss and blindness. It's actually a group of diseases where pressure builds up and damages the eye's optic nerve. There's currently no way to restore vision lost from glaucoma. National Glaucoma Awareness Month occurs annually in January, and serves as a reminder for us to get regular eye exams, and to show support for others who suffer from this condition.

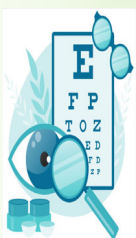

Ways To Observe National Glaucoma Awareness Month

- 1. Know the risk factors.** High risk groups are people over the age of 60, diabetics, and those who are severely nearsighted. Others who are higher risk include people of African, Asian, and Hispanic descent.
- 2. Get a checkup.** Make an appointment with your local optometrist. Regular checkups are vital to eye health—even if you have no symptoms.
- 3. Work with your community.** Offer your support by volunteering at your local health centers and organizations that hosts events.

FREE Eye Exams for Seniors (65 and older)

EyeCare America offers medical eye exams, often at no out-of-pocket cost. To find out if you qualify, call (877) 887-6327 or visit

Start this year with a new opportunity!

AARP Foundation Senior Community Service Employment Program for Seniors (55+)

Working an average of 20 hours a week, older job seekers are paid the highest of federal, state or local minimum wage and are compensated by SCSEP directly. The job seekers are placed in a wide variety of community service activities at non-profit and public facilities like day care centers, senior centers, schools and hospitals. This on-the-job training experience can then be used as a bridge to obtain employment opportunities outside of the program.

To participate, you must be:

1. Age 55 or older
2. Unemployed
3. Financially qualified
