September is Healthy Aging Month!

September is Healthy Aging Month, a time dedicated to helping individuals gain a more positive outlook about growing older, to celebrate life and turn over a new leaf. The Healthy Aging Campaign was established over 20 years ago. Since then, more individuals have become aware of their physical and mental health, diet, social skills and even financial situations— all factors that contribute to successful aging. No matter your age, you can stay at your personal best by practicing a few tips:

- 1. Live an active life.** Regular exercise is one of the greatest keys to physical and mental well-being. Living an active life will help you stay fit enough to maintain your independence to go where you want to and perform your own activities.
- 2. Eat healthy foods.** Eat nutrient-dense foods like fruits, vegetables, and whole-grain foods. Avoid sweet, salty, and highly processed foods. Keep in mind that each person has different dietary needs – follow your doctor's suggestions regarding dietary restrictions.
- 3. Maintain your brain.** Never stop learning and challenging your mind. Take dance lessons, learn a new language, attend lectures at a local university, learn to play a musical instrument, or read a book.
- 4. Cultivate your relationships.** Maintain communication with your family and friends. Schedule regular time to meet with friends and family over coffee, during a weekly shared meal, or around a common interest. Reach out to friends who might be isolated or feel lonely.
- 5. Get enough sleep.** Develop a regular schedule with a bedtime routine. Keep your bedroom dark and noise-free. Avoid watching television or surfing the internet while in bed. Stay away from caffeine late in the day.
